Laughing Gas, Viagra, and Lipitor: The Human Stories behind the Drugs We Use:

22 of 23 review helpful Better and Longer Life Through Biochemistry By Frederick S Goethel When I bought this book I didn't quite know what to expect other than the story of how some drugs are made I didn't know if it would cover a few blockbuster drugs or entire classes of drugs and I didn't know if it would be written for a lay person or a scientist Having been fascinated with drug synthesis for years I bought the The stories behind drug discovery are fascinating full of human and scientific interest This is a book on the history of drug discovery that highlights the intellectual splendor of discoverers as well as the human frailty associated them History is replete with examples of breakthrough medicines that have saved millions of lives Ether as an anesthetic by Morton penicillin as an antibiotic by Fleming and insulin as an anti diabetic by Banting are just a few example Laughing Gas Viagra and Lipitor The Human Stories behind the Drugs We Use treats readers to the inspiring tales of discovery of dozens of drugs from digitalis to anesthetics to today's blockbuster pharmaceuticals C EN News
