Medicine: Doctors Doing Harm Since Hippocrates:

6 of 8 review helpful Outstanding work of scholarship By S B V Pol This is an outstanding book and a must read for all physicians Easy to read and a real page turner As a physician myself it is both gratifying to see how much some things have changed over the centuries the application of the scientific method to medicine and shocking to see how some things have not the personality traits of physicians and their Just how much good has medicine done over the years And how much damage does it continue to do The history of medicine begins with Hippocrates in the fifth century BC Yet until the invention of antibiotics in the 1930s doctors in general did their patients more harm than good In this fascinating new look at the history of medicine David Wootton argues that for more than 2300 years doctors have relied on their patients misplaced faith in their ability Wootton's history is lively and iconoclastic Sameer Rahim Daily Telegraph About the Author David Wootton is Anniversary Professor of History at the University of York He has published widely in early mo
