By Robert Tattersall : Diabetes: The Biography (Biographies of Disease) after a thirty two year career with ford motor company including eight years as president lee iacocca engineered one of business historys greatest first lady of song ella fitzgerald was one of the most beloved jazz singers of all time she recorded more than 200 albums and some

2000 songs many of which are Diabetes: The Biography (Biographies of Disease):

4 of 4 review helpful An Absorbing and Sympathetic Book By Clio I bought this book because I was curious about the epidemiology and history of diabetes I have known people with diabetes and I also wanted to know more about the reasons why Type 2 diabetes is becoming such a major health concern I found exactly the sort of useful information about the history and epidemiology of diabetes that I was looking for and I fel Diabetes is a disease with a fascinating history and one that has been growing dramatically with urbanization According to the World Health Authority it now affects 4 6 of adults over 20 reaching 30 in the over 35s in some populations It is one of the most serious and widespread diseases today But the general perception of diabetes is quite different At the beginning of the 20th century diabetes sufferers mostly tended to be middle aged and overweight an Lively and readable The British Journal for the History of Science Tattersall s Diabetes analyzes the disease within an increasingly globalized context and through the arsenal that science has developed over the last century to comba
