6 of 7 review helpful excellent book By Anna Victoria Ares Luick I have to say that so far this book has met my expectations The chapters are very well organized and written so you can skip from front to back and just go directly to the chapter of your interest Of course reading it in an orderly fashion would be most beneficial The pictures and

diagrams are beautiful The first few chapters mostly describe the north a This new book focuses on dental implants used in conjunction with other prosthetic devices in the general dentist s office designed to help the partially or completely edentulous patient recover normal function esthetics comfort and speech Step by step procedures guide practitioners through challenging clinical situations and assist them in refining their technique The information in this practical highly illustrated book reflects the latest in continued research
