1 of 1 review helpful My favorite fast clinical reference for RPD s By retmdm This is my favorite fast reference for RPD s Some theory is explained in the first chapters above vs below height of contour clasp application of a

particular major connector etc but for the most part it is composed of figures of edentulous situations with their appropriate RPD designs Some variations are always offered You're also encouraged In this work on partial denture design part I covers basic principles and the rationale of denture design while part II describes and illustrates designs for 250 of the most common partially edentulous arches A standard design is presented and possible variations are discussed
