By Patricia D'Antonio : Nursing with a Message: Public Health Demonstration Projects in New York City (Critical Issues in Health and Medicine) view notes public health interventions applications for public health nursing practice from nursing bs c228 at western governors public health interventions the manet community health center board of directors elected a new slate of officers for 2017 and welcomed new members in february milton resident eva greenwood mba Nursing with a Message: Public Health Demonstration Projects in New York City (Critical Issues in Health and Medicine):

1 of 1 review helpful This is an outstanding history about public health nursing reform By Sandra This is an outstanding history about public health nursing reform efforts way before health care reform Written by a noted historian the book explores the challenges faced in delivering health care in New York City in the early twentieth century A must read for health care providers historians and anyone concerned ab Mandated by the Affordable Care Act public health demonstration projects have been touted as an innovative solution to the nation rsquo s health care crisis Yet such projects actually have a long but little known history dating back to the 1920s This groundbreaking new book reveals the key role that these local health programs mdash and the nurses who ran them mdash influenced how Americans perceived both their personal health choices and the well being of thei With clarity and historical sophistication D Antonio has identified a crucial hiatus in our historical knowledge nbsp This is definitely a timely and important book nbsp
