By Richard Colgan : Advice to the Healer: On the Art of Caring herbal healer academy inc testimonials and

research these testimonials are unsolicited and actual letters received by marijah mccain at before you stop right here even if you dont believe you are a healer i encourage you to read on you may be surprisedunless you are hell bent on creating Advice to the Healer: On the Art of Caring:

0 of 1 review helpful Not Exciting By Page Hudson My reviews are generally positive but I found Dr Colgan s book dull and superficial The writing was flat the biographical sketches felt like Wickipedia paraphrases and the author approaches many contemporary topics in manner certain to meet modern expectations appeal to modern prejudices but not enlighten anyone His teaching points are good but not original and not wr This book introduces the origins of important teachings that form the basis of medicine and related healing professions Reinforcing the humanistic side of patient care this book replicates the tips anecdotes and aphorisms often related by mentors and educators to medical students residents and young physicians This book provides numerous examples of best practices in the art of medicine profiles of great healers throughout history and around the world and stories From the reviews of the second edition Idquo Dr Colgan has given us a valuable and unique guide This book is for every student and practitioner in medicine or nursing as well as all who wish to understand medicine The author is a well respected educator
