4 of 4 review helpful Easy to read translation By Carrie This book is very readable and has great information in it I m currently working towards my acupuncture degree and many of my textbooks are based on this book and others It s greatly improved my understanding of Classical Chinese medicine to read this as a companion to my textbooks 4 of 4 review helpful since my own health is not t The Neijing is one of the most important classics of Taoism as well as the highest authority on traditional Chinese medicine Its authorship is attributed to the great Huang Di the Yellow Emperor who reigned during the third millennium BCE This new translation consists of the eighty one chapters of the section of the Neijing known as the Suwen or Questions of Organic and Fundamental Nature The other section called the Lingshu is Pondering how best to describe this distinctly innovative translation of the Neijing the most apt image would be the instant clarity revealed by wiping a steam misted mirror Suddenly everything is clear mdash American Journal of Acupuncture
