By Vivien Spitz : Doctors from Hell: The Horrific Account of Nazi Experiments on Humans unit 731 japanese
731 hepburn nana san ichi butai was a covert biological and chemical warfare research and development unit of the

imperial japanese army human medical experimentation in the united states the shocking true history of modern medicine and psychiatry 1833 1965 Doctors from Hell: The Horrific Account of Nazi Experiments on Humans:

3 of 3 review helpful Great history book with some unnecessary author autobiography By anonymousmammal This book is only half what I expected but I still really enjoyed it I thought it would be a relatively straight forward history of the scientists trials at Nuremberg Instead it was about 1/3 narration from the author Mrs Spitz about her experience being selected to cover the trial traveling to germany and what li A chilling story of human depravity and ultimate justice told for the first time by an eyewitness court reporter for the Nuremberg war crimes trial of Nazi doctors This is the account of 23 men torturing and killing by experiment in the name of scientific research and patriotism Doctors from Hell includes trial transcripts that have not been easily available to the general public and previously unpublished photographs used as evidence in the trial From Booklist Spitz reported the Nuremberg War Crimes Trials in Germany from 1946 to 1948 for the U S War Department In writing her book she worked from a condensed transcript of the 11 538 page court reporters
