By Dr. Colleen Olitsky, Dr. Jason Olitsky : The Naked Tooth: What Cosmetic Dentists Don't Want You to Know why youll be getting cosmetic procedures even if you may not really want to to the right is a close up view of

the same patient in the photo above as you can see the tetracycline has changed the color of his teeth The Naked Tooth: What Cosmetic Dentists Don't Want You to Know:

1 of 1 review helpful To the point By dr will This a great resource for me and my patients It has already helped us by adding to discussions and exploring all the possibilities Changing your life by changing your smile and oral health is a big decision and I see The Naked Tooth bringing confidence in a consumers choice to move forward or even do nothing at all Either way patients win with this book I really appreciate Many people are overwhelmed with the challenges they face when trying to choose both which cosmetic treatment is best for them and who to perform that procedure They are searching for tips they can use to research both aspects The Naked Tooth is a simple yet descriptive book with excellent photography which explores the options available to improve your smile and more importantly exposes the dental profession for its lack of a cosmetic dental specialty As o
