ventured to carry out a voluntary work experience at a local dental practice in England Here the dentist gave me this book as a parting gift and recommend it was a great read Upon dwelling into the book I was immediately captivated by the great points that were emphasised A book which is very well written and The parallel aims of a dental practice are to deliver excellent patient care through highly trained and motivated employees and to maximise income and profit Achieving these aims as a practice manager demands a clear vision sound preparation planning and marshalling of resources broad business knowledge an understanding of a rapidly changing world and above all wise judgement So why Genghis Khan Although some in the West see him in negative terms the Mongol leader This book is in my opinion a gem to have to hand in these uncertain times There are parts of this book for everyone but for those involved in management of any sort it will be the book as a whole which will be of use presently and in times to come
