4 of 4 review helpful Highly recommended for any clinician doing aesthetic injection treatments By Andrew Clark  
Excellent illustrations The blended images of the patient s face and underlying anatomy help enormously with one s understanding as do the anatomical cross section illustrations The text is useful as a manual for any new injector As a full time cosmetic medicine doctor for the past 7 years I still found a grea Written by internationally renowned specialists this book provides a practical step by step guide to aesthetic botulinum toxin A injections in the face including treatment of the forehead glabella brow lower eyelid bunny lines marionette lines nasolabial folds cheeks gummy smile upper and lower lip chin neckline and d eacute colletage Each aesthetic procedure is described in full from the patient examination through the suggested treatment protocol and is
